

QikFit Push Me Pull You

Our QikFit Push Me Pull You (PMPY) in surface unit is perfect for meeting tables needing 360° user access to power and data sockets and can now have the option of accepting QikFit system power USB charging and data/AV modules.

QikFit PMPY combines a near flush rotating lid assembly which when open reveals a sturdy powder coated steel power and data compartment with cable storage area. The integrated brush strip and cable management system allows the lids to be closed whilst the QikFit PMPY is in use.

The compact QikFit PMPY 25 unit configured with two power sockets, USB charging ports and data/AV outlets is ideal for small meeting tables, whilst for larger tables the QikFit PMPY 45 unit with four power sockets, two USB charging ports, and up to five data/AV outlets will meet most requirements.

USPs

- Quick & easy to install
- 360° user access
- Cable guides prevent damage
- TUF A+C 25W option

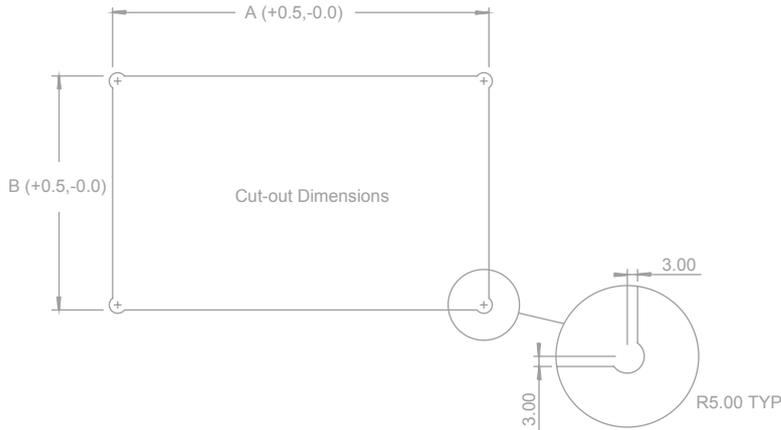

technical

Common Modular Components*

QikFit PMPY Cutout
